### SUMMARY

Backend-focused engineer and team lead who builds modern business applications that turn complex processes into reliable, maintainable software. Strong .NET and SQL foundation, with a pragmatic approach: understand the problem first, then design systems people can depend on.

**Core skills:** ASP.NET Core · C# · SQL / T-SQL · REST APIs · Angular · Business Applications · Agile · Team Leadership

---

### EXPERIENCE

#### Development Team Lead

Sep 2017 — Present

##### Tribal Group

- Lead engineering delivery for business-critical product work in an Agile environment, aligning technical direction with stakeholder needs.
- Mentor developers and raise delivery quality through clearer design decisions, code review, and dependable release practices.
- Own end-to-end outcomes — from problem framing to production support — for systems that teams and clients rely on daily.

#### Senior Software Developer

Aug 2015 — Sep 2017

##### Tribal Group

- Built and evolved .NET applications and T-SQL data layers supporting complex business workflows.
- Designed maintainable APIs and data models that stayed reliable as product requirements expanded.

#### Team Lead

Jan 2014 — May 2015

##### Lendsoft Solutions Inc.

- Led a development team delivering client software under real project timelines and changing priorities.
- Unblocked engineers, coordinated delivery, and kept quality high across active workstreams.

#### Software Programmer

Jun 2013 — Dec 2013

##### Condor POS Solutions RP Inc.

- Delivered features for point-of-sale and related operational systems used in day-to-day business.

#### Software Developer

Mar 2013 — Jun 2013

##### RealPage, Inc.

- Contributed features for a global property-technology product within established engineering and release practices.

#### .NET Software Engineer

Nov 2007 — Dec 2012

##### Pointwest Technologies

- Designed and delivered .NET solutions for enterprise clients across multi-year engagements.
- Strengthened backend fundamentals in APIs, business logic, and data access for production systems.

#### IT Head / Thesis Coordinator / Instructor

Jun 2000 — Oct 2007

##### STI College

- Led campus IT operations while teaching Computer Science and guiding student thesis projects.

---

### EDUCATION

Bachelor's degree, Computer Science · STI College Legazpi
